Exchanging opinions

We have worked with the Nepalese community group “Nepal Nagoya” to support the victims of the earthquake since April 27<sup>th</sup>. We will continue to hold such meetings and collect donations for them.

### Support

The Japanese government has sent 70 civil servants and 270 self-defense officials to Nepal. They have also offered 25 million yen worth of supplies in tents and blankets and 1 billion yen donation.

### Concern

Many famous tourist attractions and world heritage sites were destroyed by the earthquake. We are greatly concerned about the economic effects this will have on tourism in Nepal.

Organizer : NPO Community-based Development Initiatives Center (CDIC)
